ABOUT US

Security & Safety, Asset Protection,
Loss Prevention and Control.

RC NO: 875036

PGC NO: NSCDC/PG/014/0005840

Heroes Protection Systems
Ltd is a member of Heroes
Group of Companies, and is
incorporated in 2010 to
carry on the business of
private security for
individuals and corporate
concerns. Licensed in 2014
as a Private Guards
Company (PGC) in Nigeria.

Security is the process by which assets are protected from criminal violation as safety is the process by which assets are protected from accidents.

The twin occurrence of crime and accident in the life of individuals and organizations lead to unwarranted loss. Loss being a condition of disadvantage resulting in the victimization of the concern bearing the loss. Other sources of loss are wastage, error, unethical practices and natural disaster.

The survival of any individual or organization is principally determined by their ability to acquire, utilize and retain energy in the form of resources. The retention of resources to avoid resource erosion is a function of loss management, as can be found in loss prevention and control techniques.

The true essence of private security management therefore is to assist individuals and organizations to achieve the most efficient and effective loss management processes in order to attain continuous survival through resource acquisition, utilization and retention.

At Heroes Protection Systems, we are ever mindful of these eternal truths, so our services are tailored in that direction to achieve these important goals for our numerous valued clients.
